

Micro CONFORM

X-ray Scanning Inspection Services with
Conform / Nonconform Determinations

3D CT Scan of an Additive Manufactured Rocket Engine

Increase your internal inspection capacity to meet your production deadlines by utilizing **μConform** services.

Avonix Imaging can make **Conform or Nonconform Determinations** based on your customer provided inspection criteria or an existing published inspection standard, such as AWS D20.1, SAE AMS2175 or similar.

Contact us today and speak with one of our **Level 2 or Level 3 (NAS 410)** staff about how we can support the goals of your business!
